

# STORAGE SOLUTIONS for Government Agencies

Government agencies have unique needs when it comes to storage, compliance, and procurement, especially when many historical government buildings weren't built with storage in mind. With over 40 years of experience working with government agencies at all levels, we're here to make the process simple and straightforward so you can focus on what really matters.

## Weapon Storage

Secure personal weapons with sally port gun lockers, or store and organize a variety of weapons and ammunition with configurable armory solutions that evolve to suit your agency's changing needs.

## Evidence Storage

Maintain a secure chain of custody with short-term evidence deposit lockers, or organize a variety of long-term evidence with space-saving high-density mobile storage.

## Records

While many records are now digital, high-density mobile storage can help balance security and accessibility for physical documentation and archives.

## Office Modular Casework

As your needs change and office space is rearranged, so can your modular casework and reception areas. With life-time warranty casework solutions, we can provide storage, reception, and many other modular casework solutions for courthouses, city halls, large government agencies, and much more.

# Partnering with you every step of the way

---

Government building and procurement projects have many moving parts. We're here to help streamline the process with:
