Since joining the Revit® community in late 2012, Eagle has been working diligently to create our Revit® content library of catalog items.

You can access Eagle's Revit® library through our website—www.eaglemhc.com—which features a link on the homepage which takes you directly to our offering in the KCL library.

Contact us...

If you are interested in a model that is not yet available via our website, please contact us via email at: **revit@eaglegrp.com**

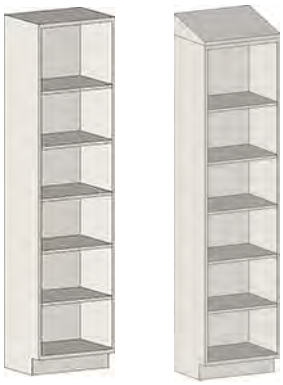

Please include the following information with your request, if applicable:

- Contact information
- Project name
- Requested timeline
- Deliverable media

- Custom or standard (include Model #)
- Plans and/or specifications related
- Special considerations
- Revit version (2011-2014 available)

Eagle MHC offers a variety of products for the Life Sciences industry, serving the Pharmaceutical, Biotech, Medical Device, and Research segments of the industry. We offer a wide range of carts including vial tray carts, tote box carriers, angled shelf carts, exchange carts and storage and transport carts. Our high density storage solutions include both top track and floor track storage systems. Eagle's stainless steel workstations, wall cabinets, and stainless steel countertops and overlays rounds out our Life Sciences products offering. Custom cart and workstation systems are available to meet your exact specifications.

Additional product offerings for the lab marketplace include stationary and mobile workstations, cleanroom tables, stainless steel countertops, a variety of transport and storage carts and shelving, and a full line of stainless steel lab sinks, including stand alone and drop in models.

AUTODESK® REVIT®

Since joining the Revit® community in late 2012, Eagle has been working diligently to create our Revit® content library of catalog items.

You can access Eagle's Revit® library through our website—www.eaglemhc.com—which features a link on the homepage which takes you directly to our offering in the KCL library.

Contact us...

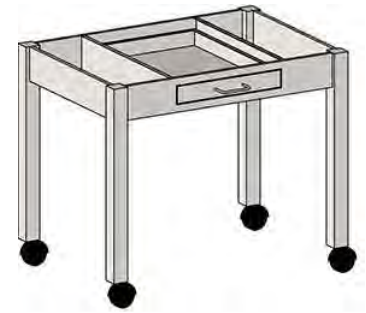

If you are interested in a model that is not yet available via our website, please contact us via email at: **revit@eaglegrp.com**

Please include the following information with your request, if applicable:

- Contact information
- Project name
- Requested timeline
- Deliverable media
- Custom or standard (include Model #)
- Plans and/or specifications related
- Special considerations
- Revit version (2011-2014 available)

Stainless Steel Countertops

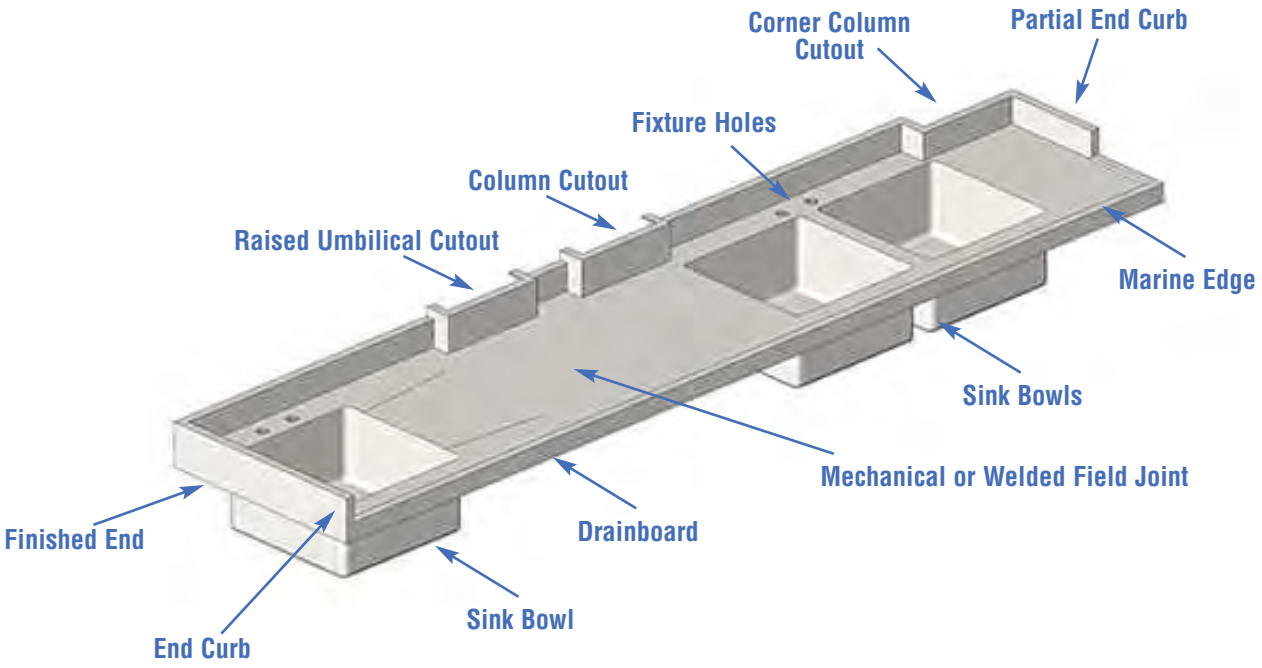

- 16 or 14 gauge, type 304 or 316 stainless steel. Other gauges and types of stainless available to meet the function and chemical resistant demands of highly specialized labs.
- Standard front edge Square or Box Marine, unless otherwise specified. See *detail 1*.
- Back and end splashes are manufactured per specification. See *detail 2 & 3*. All working surfaces and sink bowls have coved sanitary horizontal and vertical corners.
- Either a mechanical hairline seam or field welded joint available per your specifications. Maximum length without seam is 144˝ if no end splash. Length is reduced by 5½˝ for each end splash that may be required.
- Fabricated sink bowls available in most any size and depth with single or multiple compartments.
- For backsplash mounted faucets, splash will need to be at least 2˝ deep for plumbing access, holes for deck mounted faucets are typically centered 1½˝ from the edge of sink bowl.
- Both L-shaped and U-shaped tops are available per your drawings.
  - Corners are mitered and factory welded.
  - Maximum size without field joint provisions is 96˝ x 96˝ to fit into standard trailer for ground shipment.
- Countertops have stainless steel reinforcing hat channels. Sound deadening tape is factory installed. Top support options include National Sanitation Foundation (NSF)-listed sprayed latex sound deadening and marine grade plywood backing with white laminate facing.
- Standard packaging is wood reinforced cardboard and is included in the cost. Should full crating be required, it too will be included in the cost.

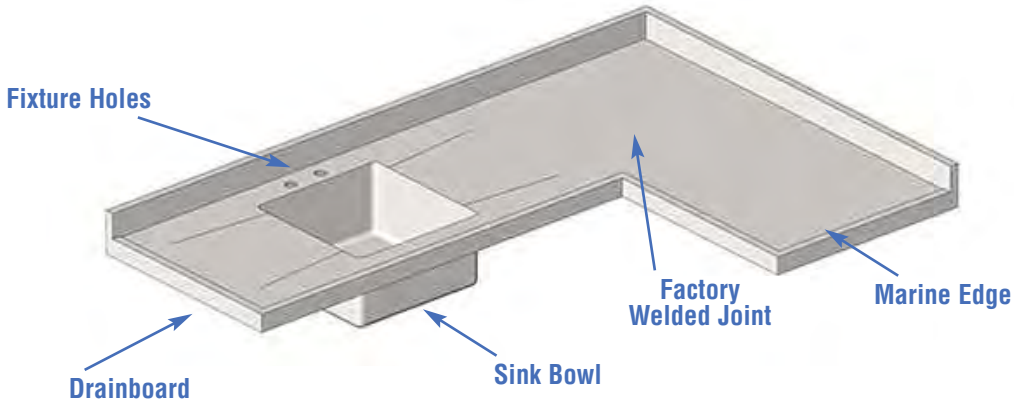

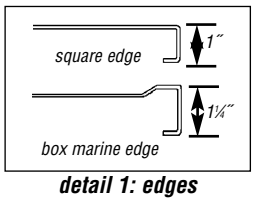

stainless steel countertops fabricated to drawings indicating backsplash height, raised edge and field condition requirements

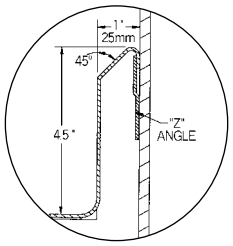

Stainless Steel Countertops

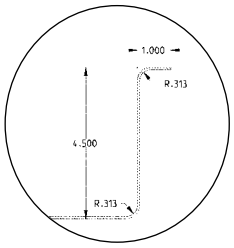

detail 1: edges

detail 2:
example of a 4½" backsplash with 45° return (backsplash built to specification)

detail 3:
example of a 4½" backsplash with 90° return (backsplash built to specification)

NOTE: – Drawings to be submitted for approval prior to fabrication using the latest version of AutoCad software. They will be emailed in Adobe Acrobat format (.pdf) unless specified otherwise. AutoCad files (.dwg) are available upon request.
– Complete field welding and finishing services are available at additional expense.

Custom Equipment

Manufactured to Your Specifications!

Custom applications comprised of specially fabricated, stainless steel equipment or pre-fab modular components, or a combination of both, work their way quickly through a simple yet sophisticated design, approval and fabrication process. Equipment built to your exact specifications, pre-wired and pre-plumbed (if applicable), is shipped with shorter lead times and at a lower overall cost.

Manufacturing Capabilities:

- Engineering and design assistance.
- Room layouts provided.
- Standard and custom built stainless products.
- Small to large order capacities.
- Designed and built to industry standards.
- Quality controlled throughout process.
- In-house equipment capabilities and standard products provide ***economical*** solutions.
- Electropolishing services.

Design Services for Carts, Work Flow, and Room Layouts

Shelf-Select™

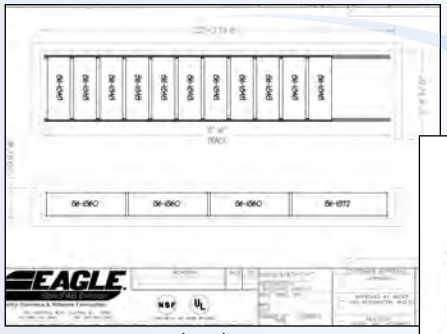

*A **no-cost** design and layout service for wire shelving products.*

Provide us with…

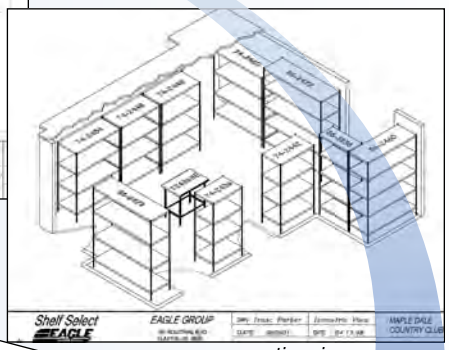

- Dimensions of the space available
- Number of shelves required per unit
- Post heights
- Indicate stationary, mobile or high-density
- Any additional pertinent storage requirements

And we'll provide you with…

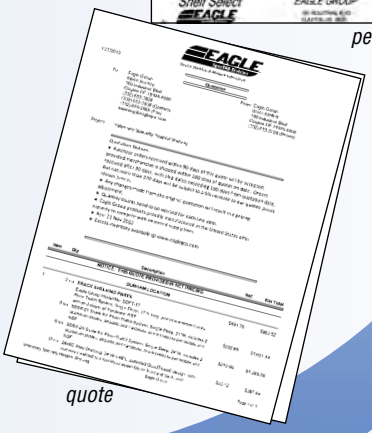

- **Plan View**
  Shelving systems layout makes the most efficient utilization of your available space.
- **Perspective View**
  Illustrates the proposed equipment assembled in the available space. A great tool for presentation which reduces field assembly time provided to your installer.
- **Quote**
  Includes model numbers, net prices and shipping weights for all components in specified job.
