
TrendWall®

Trendway >

We've been building quality Movable
Walls for nearly 50 years.

A HERITAGE OF ARCHITECTURAL INTERIORS

Trendway has been in the Movable Wall business since 1968. There have been changes to TrendWall® over those years, but today it remains a proven performer with installations around the globe. Installation is fast, clean and simple. Power and data routing and access is a snap. Later, if needs change, the layout can be rapidly reconfigured for continued years of service.

TrendWall attaches cleanly to a building's structural walls.

A full menu of surface material options makes it easy to complement any decor.

TrendWall integrates with all Trendway Movable Wall, Systems and Storage products to provide endless ways to meet a range of requirements.

SUSTAINABLE SOLUTION

Reduce, re-use, recycle — TrendWall does it all. It reduces waste dramatically over drywall construction and demolition. It's 95% re-usable and can be reconfigured with minimal impact to carpet and ceiling. At the end of useful life it's 97% recyclable material. And like all Trendway Movable Walls, it's Indoor Advantage® Gold and BIFMA e3 level® 2 certified.

TAX ADVANTAGES

Who doesn't want lower taxes? Check your local tax codes, or ask your tax accountant. You'll probably be able to depreciate TrendWall as a "tangible asset" in just 7 years, versus 39 for conventional construction.

Shown with Volo Aluminum Framed Door.

SPACE DIVISION MADE SIMPLE

Unitized, modular panel construction makes TrendWall simple to plan and install. Choose from solid, glazed and partially glazed panels, and a range of swing and sliding door options.

TrendWall is designed to handle challenging site conditions. The system delivers solid solutions to meet design, functional and structural requirements.

PANEL CHOICES

VARIABLE GLASS PANELS WITH CUSTOM SEGMENTS

DOOR OPTIONS

See pricebook for specific sizes and configurations.

Power and data can be routed through vertical Pilasters and the Base wireway. Duplexes can be installed for access in Pilasters.

Pilasters can easily accommodate your choice of lighting controls.
