Optimize Your Arms Room with Spacesaver's UWR® Storage System

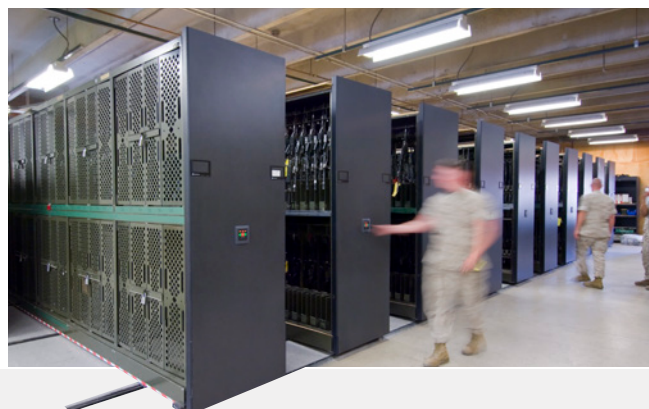

From the proven, military-certified Universal™ Weapons Rack® to space-saving high-density mobile storage systems, Spacesaver Corporation provides an unparalleled line of solutions for weapons and optics storage to ensure military bases meet security and accountability for all weapons storage.

UNIVERSAL WEAPONS RACK (UWR®)

Originally designed for, and in conjunction with, the military, the UWR® storage system is designed to securely store a variety of weapons from rifles (including **M7 and M250 with the Vortex Smart Optic slated for fielding in late 2023**) to side arms, gear bags to optics, all utilizing the same cabinet frame. The UWR Storage System combines thoughtful design and unmatched features to create a system that's secure, dependable, and instantly deployable under any circumstance. Use UWR in tandem with high-density mobile storage and achieve the ultimate in security, transportability, visibility, and readiness.

The UWR is the weapons rack of choice for:

- » **Air Force** – Security Forces and Logistics Readiness Squadrons
- » **Army** – various active duty units, Reserves, and National Guard
- » **Marines** - designed by and continued use for almost a decade
- » **Navy** – only weapons rack approved for shipboard application (NAVSEA certified)
- » **Special Operations Command** – CONUS and OCONUS operational units

BENEFITS

- **SECURITY:** Retractable doors and locking bars provide weapon security, according to specific military requirements for the physical security of conventional arms, ammunitions and explosives
- **DURABILITY:** Fully welded, heavy-gauge cabinet provides long-lasting service even under the toughest conditions.
- **VISIBILITY:** Diamond-shaped mesh exterior permits visible counts or weapon inventory, even when the doors are closed and locked.
- **SPACE-EFFICIENCY:** Modular, stackable design maximizes armory storage space. Cabinets may be ganged together or used in a Spacesaver high-density mobile storage system.
- **FLEXIBILITY:** "A la carte" configurability accommodates the storage of a wide variety of weapon types, gear, optics and spare barrels.
- **MODULARITY:** Supports weapons with or without a suppressor, and those with a suppressor that has a protective case, allowing optics and accessories to remain assembled and the weapon zeroed in while being stored.
- **PROTECTION OF WEAPONS:** All components that come into contact with the weapons are either dipped in a black poly vinyl chloride (PVC) coating or are made with an injection-molded thermoplastic to protect the weapons from abrasions.
- **TRANSPORTABILITY:** Transport components completely prevent the weapons from movement, vibration, shock and abrasion.

UWR 84"®

UWR®

EASY TO TRANSPORT. READY TO DEPLOY.

It only takes two people to transport a Spacesaver UWR, making it the most deployable weapons rack available on the market. The UWR storage system can stand alone on the floor, be stacked two high, and can be ganged together, in addition to being mounted on mobile carriages. Ready for action, the rack can be easily moved to another location. Simply remove the unit from the floor or mobile system, and go from garrison to transport in Spacesaver's Universal Expeditionary Weapons Storage System (UEWSS), the first custom integrated container capable of storing and shipping modern small arms, crew serve weapons, associated collateral gear, and repair parts in a most secure fashion within a (Type 1) TriCON.

SPACESAVER HAS YOU COVERED WITH PREPAREDNESS, PRODUCT, AND PROCUREMENT

Our local support and customer service are with you from the free site survey to the sustainment of Spacesaver products that are procured. We have identified FAR and DFAR compliant internal DOD contracts that customers can use MIPR's to purchase the turnkey arms room upgrade.

Contracting Activity: DLA Troop Support

Contract Name: Tailored Logistics Support Program

Contract number: SPE8EJ21D0020

ARE YOU PREPARED?

M7/250 FIELDING: **Q1 of 2024** (*calendar year*)

ARMS ROOM UPGRADE: **Q4 of 2023** (*calendar year*)

FUNDS OBLIGATED/ORDER RECEIPT: **August 2023**

ORDER SUBMISSION: **July 2023**

ARMS ROOM SURVEY: **ASAP**
