

# THERMOFUSED MELAMINE

## LOW PRESSURE LAMINATE FINISHES

Spacesaver is pleased to offer color/pattern selections of quality low pressure laminate product for use as face panels, back panels and tops on mobile and stationary shelving units. Thermofused melamine low pressure face and back panels provide a multipurpose, economical and decorative finish.

These decorative panels consist of a melamine resin-impregnated decorative paper, thermally fused to an industrial grade 3/4" (19 mm) particleboard. Lamination is permanent. Durability is built in. The panels are also highly resistant to stains, scratches, abrasion, chip-out, burnishing, steam, and radiant heat.

All colors and patterns shown are printed reproductions and may differ slightly from the actual product. Please refer to actual samples before specifying.

High pressure laminate is also available. Please contact your local representative for a brochure.

### A COMMITMENT TO OUR CUSTOMERS

As our ISO 9001 certification would suggest, Spacesaver is dedicated to the highest standards of product quality. Equally important is our commitment to customer service, both before the sale and after.

Through our extensive network of local Area Contractors, Spacesaver provides a level of experience and competency that others simply do not. From architectural constraints and building codes to system design and floor-loading, we have the expertise to handle every issue and customer concern.

A storage solution that meets your unique criteria. Single-source turn-key project management. Certified system installation. Ongoing maintenance and support. Spacesaver sets a standard of professionalism, performance and responsiveness that is unmatched. We live up to our customer commitments and have the references to prove it.

You can rely on The Spacesaver Group.
