

PRODUCT OVERVIEW

Ideal for heavy geological collections, the carefully crafted Viking Model 231 cabinet features a versatile counter-high design that can be safely stacked to help make the most of your floor space — or, if not stacked, gives you a convenient extra work surface. The Model 231 provides 8.51 cubic feet of storage space.

Shown with optional lock for recessed handle.

The Spacesaver Corporation has expanded its museum storage offerings with the acquisition of Viking Metal Cabinets. This union has simplified and improved the client experience by making Spacesaver a one-stop-shop for the design, installation, and maintenance of metal museum cabinets, shelving, and compact storage systems. The companies have previously worked together at prestigious institutions such as the Smithsonian Institution, Yale University, and the Field Museum of Natural History.
