

PRODUCT OVERVIEW

Ideal for herbariums, the Viking Model 240 cabinet provides 8.9 cubic feet of storage space and features a convenient, counter-high design that can be stacked safely — or, if not stacked, provides a useful extra work surface.

This carefully crafted, high-quality cabinet includes 12 storage compartments separated and strengthened by a beaded center divider. Its unique design provides extra space in front and back of the compartments to allow free circulation of air and fumigants.

Shown with optional lever handle.

The Spacesaver Corporation has expanded its museum storage offerings with the acquisition of Viking Metal Cabinets. This union has simplified and improved the client experience by making Spacesaver a one-stop-shop for the design, installation, and maintenance of metal museum cabinets, shelving, and compact storage systems. The companies have previously worked together at prestigious institutions such as the Smithsonian Institution, Yale University, and the Field Museum of Natural History.
